

## One day Experience tour by E&G

### Vicopisano to visit and to taste

#### *FD tour -on Sundays only*

Vicopisano is a medieval village off the beaten tracks. The Brunelleschi's tower, a masterpiece of engineering built around 1330 to fortify the castle, dominates the entire plain of Vicopisano; from where you can admire an endless landscape. But the beauties of this little village do not end here! After lunch, in a typical Trattoria, where you can eat traditional Tuscan dishes, you will visit an ancient olive-oil stone mill, still in use, where an olive oil taste of Pisan Mountain with traditional bruschetta, will delight your taste buds.

In the morning guided tours of the monumental complex of the Rocca del Brunelleschi on Sunday (2h.00)

The Rocca and Palazzo Pretorio's monumental complex includes:

- ROCCA DEL BRUNELLESCHI
- PALAZZO PRETORIO
- THE PERMANENT EXHIBITION OF S. MICHAEL'S FINDS, IN VERRUCA
